

Quality First Home Improvement Remains Open and we are Committed to Your Safety

During these unprecedented times we are aware there are critical home improvement projects for example leaky roofs or windows that can't wait for a global pandemic to end. Quality First remains open to service projects in commitment to each of our operating states California and Nevada with state and county guidance/executive orders.

Since COVID-19 Quality First has more than doubled our efforts to ensure everyone's safety which includes:

- Following all of the health and safety guidelines set forth by the OSHA, CDC and state government.
- Practicing social distancing by limiting contact.
- Wearing PPE for your safety.
- Only entering a household upon receiving an invitation.
- ZOOM appointments available.

We recognize that there are homeowners that require our services and there are also projects that are currently underway, please be assured that we are closely following state and federal orders. If you have concerns about an existing project or any questions, please call us at 1-800-859-7494 to speak with a Quality First Home Improvement representative.
